Keep this in consideration

- we can not guarantee the health, behavior, and or temperment of any animal adopted from the shelter
 - the shelter is like the middle person we receive stray and unwanted animals on a daily basis from the public. the shelter sadly is a haven for some animals. the staff and volunteers work hard to take care of them and provide them the best care. We in trust in our adopters to do the same.

We strongly suggest

- adopting a new pet can sometimes have challenges, but it can be so rewarding at the same time. it takes time and commitment to train and mold a wanted behavior from your new pet.
- all adopted animals from the shelter should go to your veterinarian to receive a check up
