

PRESS RELEASE

FOR IMMEDIATE RELEASE:

Date: October 11

Wayne County Recycling Stopped – Landfill Open for business

Wayne County, NC – Due to power issues, eight of the thirteen Convenience Sites are without power, and therefore cannot compact household waste. This impacts our ability to handle a large volume of waste. All residents are being asked not to bring their recycling to any Convenience Sites until further notice.

Important: For residents who are cleaning up from Matthew, or who will later be cleaning up after the flooded rivers recede, should take any storm debris, such as carpet, furniture, or other damaged household items, to the Wayne County Landfill, located at 460 S Landfill Rd in Dudley. Those who live in the northern side of the county should wait until the river recedes before attempting to take any storm debris to the landfill.
