Wayne County Identifies One Presumptive Positive Case of COVID-19

Wayne County, NC – One Wayne County resident has tested presumptively positive for COVID-19. This is considered presumptive until confirmation by the U.S. Centers for Disease Control and Prevention (CDC) lab. The individual has been quarantined at home and proper protocols are being followed.

County stakeholders continue to collaborate and respond to information as it becomes available. While we understand there may be additional questions, we are unable to comment further until official confirmation comes from the CDC. Our goal is to maintain a high level of transparency and inform our citizens as quickly as possible.

For information on COVID-19, the Wayne County Health Department has a website available at www.waynegov.com/coronavirus.

THE GOOD LIFE. GROWN HERE.
